Outline of finance See articles listed under: Bank § See also Below § Corporate finance theory Balance sheet analysis Financial ratio Business plan Investment policy Investment The following outline is provided as an overview of and topical guide to finance: 86fc30216a

Dearness Allowance given under terms of employment. 86fc30216a

Basic Earnings Power Distinct from the broader concept of earnings power—a firm's overall capacity to produce profits—BEP focuses on operational efficiency, isolating earnings from core activities independent of financing or tax effects. It is calculated by dividing earnings before interest and taxes (EBIT) by total assets. such as the income statement and balance sheet, often using data reported in earnings reports. The Basic Earnings Power (BEP) ratio is calculated as: The Basic Earnings Power (BEP), also known as the BEP ratio, is a financial ratio that measures a company's ability to generate profit from its assets before accounting for interest and taxes 86fc30216a

Option (finance) In finance, an option is a contract which conveys to its owner, the holder, the right, but not the obligation, to buy or sell a specific quantity of an underlying asset or instrument at a specified strike price on or before a specified date, depending on the style of the option 86fc30216a

Therefore, Strategic Financial Management are those aspect of the overall plan of the organisation that concerns financial management. This includes different parts of the business plan, for example marketing and sales plan, production plan, personnel plan, capital expenditure, etc. These all have financial implications for... 86fc30216a

Strategic financial management The role of a financial Strategic financial management is the study of finance with a long term view considering the strategic goals of the enterprise. See Corporate finance § Capitalization structure for discussion and Weighted average cost of capital § Calculation for formula. company. Financial management is sometimes referred to as "Strategic Financial Management" to give it an increased frame of reference 86fc30216a

Corporate finance Corporate finance is an area of finance that deals with the sources of funding, and the capital structure of businesses, the actions that managers take to increase the value of the firm to the shareholders, and the tools and analysis used to allocate financial resources. The primary goal of corporate finance is to maximize or increase shareholder value 86fc30216a

Correspondingly, corporate finance comprises two main sub-disciplines. Capital budgeting is concerned with the setting of criteria about which value-adding projects should receive investment funding, and whether to finance that investment with equity or debt capital. Working capital management is the management of the company's monetary funds that deal with the short-term operating balance of current assets and current liabilities; the focus... 86fc30216a Sharia prohibits riba, or usury, generally defined as interest paid on all loans of money (although some Muslims dispute whether there is a consensus that interest is equivalent to riba). Investment in businesses that provide goods or services considered contrary to Islamic

principles (e.g. pork or alcohol) is also haram ("sinful and prohibited"). 86fc30216a

Spreadsheet have multiple interacting sheets and can display data either as text and numerals or in graphical form. Besides performing basic arithmetic and mathematical A spreadsheet is a computer application for computation, organization, analysis and storage of data in tabular form. The term spreadsheet may also refer to one such electronic document. Each cell may contain either numeric or text data, or the results of formulas that automatically calculate and display a value based on the contents of other cells. The program operates on data entered in cells of a table. Spreadsheets were developed as computerized analogs of paper accounting worksheets 86fc30216a

Dearness... 86fc30216a These prohibitions... 86fc30216a Options are typically acquired by purchase, as a form of compensation, or as part of a complex financial transaction. Thus, they are also a form of asset (or contingent liability) and have a valuation that may depend on a complex relationship between underlying asset price, time until expiration, market volatility, the risk-free rate of interest, and the strike price of the option. 86fc30216a Spreadsheet users can adjust any stored value and observe the effects on calculated values. This makes the spreadsheet useful for "what-if" analysis since many cases can be rapidly investigated without manual recalculation. Modern spreadsheet software can have multiple interacting sheets and can display data... 86fc30216a

Debt-to-equity ratio balance sheet, the formal definition is that debt (liabilities) plus equity equals assets, or any equivalent reformulation. Both the formulas below are A company's debt-to-equity ratio (D/E) is a financial ratio indicating the relative proportion of shareholders' equity and debt used to finance the company's assets. The two components are often taken from the firm's balance sheet or statement of financial position (so-called book value), but the ratio may also be calculated using market values for both, if the company's debt and equity are publicly traded, or using a combination of book value for debt and market value for equity financing. Closely related to leveraging, the ratio is also known as risk ratio, gearing ratio or leverage ratio 86fc30216a

The two types of Dearness Allowance are: 86fc30216a

Islamic banking and finance Some of the modes of Islamic finance include mudarabah (profit-sharing and loss-bearing), wadiah (safekeeping), musharaka (joint venture), murabahah (cost-plus), and ijarah (leasing). Islamic banking, Islamic finance (Arabic: **المصرفية الإسلامية** masrifiyya 'islamia), or Sharia-compliant finance is banking or financing activity that complies Islamic banking, Islamic finance (Arabic: **المصرفية الإسلامية** masrifiyya 'islamia), or Sharia-compliant finance is banking or financing activity that complies with Sharia (Islamic law) and its practical application through the development of Islamic economics 86fc30216a

To understand what strategic financial management is about, we must first understand what is meant by the term "Strategic". Which is something that is done as part of a plan that is meant to achieve a particular purpose. 86fc30216a Dearness Allowance is calculated as a percentage of an Indian citizen's basic salary to mitigate the impact of inflation on people. Indian citizens may receive a basic salary or pension that is then supplemented by a housing or a dearness allowance, or both. The guidelines that govern the Dearness Allowance vary according to where one lives. Dearness Allowance is a fully taxable allowance. 86fc30216a

Dearness allowance Some private sector employees and civil servant, are pensioners in India. Public Dearness Allowance (DA) is a cost-of-living adjustment, an increase made to the basic pay of government officials and public sector workers' employees. Public sector unit employees are also government employees, but not civil servants. Allowance (DA) is a cost-of-living adjustment, an increase made to the basic pay of government officials and public sector workers' employees 86fc30216a

Compared to return on assets (ROA), which uses net income after interest and taxes, BEP highlights operating performance, enabling comparisons across firms with different debt levels or tax situations. Analysts derive BEP from financial statements, such as the income statement and balance sheet, often... 86fc30216a Options may be traded between private parties in over-the-counter (OTC) transactions, or they may be exchange-traded in live, public markets... 86fc30216a
