Ayurveda therapies have varied and evolved over more than two millennia. Therapies include herbal medicines, special diets, meditation, yoga, massage, laxatives, enemas, and medical oils. Ayurvedic preparations are typically based on complex herbal compounds, minerals, and metal substances (perhaps under the influence of early Indian alchemy or rasashastra). Ancient ayurveda texts also taught surgical techniques, including... d97db10df4 Believers in qi describe it as a vital force, with one's good health requiring its flow to be unimpeded. Originally prescientific, today it is a pseudoscientific concept, i.e. not corresponding to the concept of energy as used in the physical sciences. d97db10df4 Auditing uses techniques from hypnosis that are intended to create dependency and obedience in the auditing subject. It involves repeated questioning of the auditing subject, forming an extended series. It may take several questions to complete a 'process', several processes together are a 'rundown', several rundowns completed and the Scientologist is deemed to have advanced another level on... d97db10df4
