

White City Blue Clipper Large Print

== Early history ==

List of clipper ships In the late 20th century, ships based on the 19th century designs of historical ships began to be built. The period of clipper ships lasted from the early 1840s to the early 1890s, and over time features such as the hull evolved from wooden to composite. The following entries are organized by their year of launch and alphabetically within each year. The age of clippers ended when they were phased out in favor of more modern Iron-hulled sailing ships, which eventually gave way to steamships. During the 'crest of the clipper wave' year of 1852, 200 clippers rounded Cape Horn. These are used today as training ships and to promote tourism rather than for cargo or trade. The period of clipper ships lasted from the early 1840s to the early 1890s, and over time features such as the hull evolved from wooden to composite

Clipper The term was also retrospectively applied to the Baltimore clipper, which originated in the late 18th century. 19th-century standards, could carry limited bulk freight, and had a large total sail area. "Clipper" does not refer to a specific sailplan; clippers may be schooners A clipper was a type of mid-19th-century merchant sailing vessel, designed for speed

Ann McKim She was printed with five sails. 550 in 2013 and White Squall – Clipper Ship "Ann McKim", sold for \$68,500 to a private collector from Virginia in 2014

Surprise served as a clipper-rigged ship for 17 years, from 1850 until 1867, giving her an exceptionally long working life with this demanding rigging. After her sail plan was cut down in 1867, removing her skysails, she entered a second life as a slower merchant sailing ship from 1867 until her loss in 1876.

Memnon (clipper) The Memnon was the first clipper ship to arrive in San Francisco after the Gold Rush, and the only clipper to arrive in San Francisco before 1850. Built The Memnon was the first clipper ship to arrive in San Francisco after the Gold Rush, and the only clipper to arrive in San Francisco before 1850. Built in 1848, she made record passages to San Francisco and to China, and sailed in the first clipper race around Cape Horn

USS Nightingale (1851) USS Nightingale was originally the tea clipper and slave ship Nightingale, launched in 1851. USS Saratoga captured her off Africa in 1861; the United States Navy then burned her in 1862.

King Philip (clipper) The wreck of this ship is only rarely visible; very infrequently the. King Philip was a 19th-century clipper ship launched in 1856 and wrecked in 1878.

Cutler lists this passage as 122 days, leaving New York April 11, 1849 under Capt. J.R. Gordon, and arriving in San Francisco on August 28, 1849. Race Horse was similar to a barque built by Samuel Hall a few years earlier, Coquette. The design of Race Horse has been credited to both Samuel Hartt Pook and to Hall. According to a letter written by Hall to the "Boston Daily Atlas", he asked Pook to make the models and molds for Race Horse based on Coquette, with a few modifications, in order to help Pook to "get his name before the public".

Clippers were generally narrow for their length, small by later 19th-century standards, could carry limited bulk freight, and had a large total sail area. "Clipper" does not refer to a specific sailplan; clippers may be schooners, brigs, brigantines, etc., as well as full-rigged ships. Clippers were mostly constructed in British and American shipyards, although France, Brazil, the Netherlands, and other nations also produced some. Clippers sailed all over the world, primarily on the trade routes between the United Kingdom and China, in transatlantic trade, and on the New York-to-San Francisco route around Cape Horn during the California gold rush. Dutch clippers were built beginning in the 1850s for the tea trade and passenger service to Java.

Surprise (clipper) A. From that point onward the vessel spent much of her working life in the China trade, although the vessel also made three trips from the East Coast of the United States to California. Low & Brother, soon found that the vessel performed well in Far Eastern waters. It initially rounded Cape Horn to California, but the vessel's owners, A. Boston-built clipper ships, Surprise was fully built and rigged in her port of origin, but was towed to the East Coast's shipping hub, New York City, to take Surprise was a California clipper built in East Boston in 1850.

The boom years of the clipper era began in 1843 in response to a growing demand for faster delivery of tea from China and continued with the demand for swift passage to gold fields in California and Australia beginning in 1848 and 1851, respectively... fb3c8f513a == Record passage to San Francisco == fb3c8f513a "The only clipper ship to make the voyage to San Francisco prior to 1850 was the Memnon, under Captain George Gordon, which arrived there July 28, 1849 after a record passage of one hundred and twenty days from New York." fb3c8f513a Among other characteristics which define a clipper is that they were usually ships in the strictest sense of the word. That is, they were three-masted vessels (though rarely four-masted) and were fully square-rigged on all masts. Speedy contemporary vessels with other sail plans, such as barques, were also sometimes called clippers. Likewise, Baltimore clipper is a colloquial term most commonly applied to two-masted schooners and brigantines. The "Baltimore clipper" was actually invented before the appearance... fb3c8f513a

Race Horse She set a record of 109 days from New York to San Francisco during the first Clipper Race around the Horn. She set a record of 109 days from New York to San Francisco during the first Clipper Race around the Horn. Race Horse was an 1850 clipper barque. Race Race Horse was an 1850 clipper barque fb3c8f513a
