This is a bot-compiled listing of journals cited by Wikipedia, organized by their current publishers (or sometimes by their host repository). Due to imperfect matching algorithms, the list may feature publications and publishers which... f60fb115c8 are listed for the wrong publisher because of a shared name (e.g. several publications named Open Medicine) f60fb115c8 According to the official estimates of the United Nations, the WHO/ILO Joint Estimate of the Work-related Burden of Disease and Injury, almost 2 million people die each year due to exposure to occupational risk factors. Globally, more than 2.78 million people die annually as a result of workplace-related accidents or diseases, corresponding... f60fb115c8

Saturation diving The ratio of productive working time at depth to unproductive decompression time is thereby increased, and the health risk to the diver incurred by decompression is minimised. Retrieved 24 April 2018 Saturation diving is an ambient pressure diving technique which allows a diver to remain at working depth for extended periods during which the body tissues become saturated with metabolically inert gas from the breathing gas mixture. Once saturated, the time required for decompression to surface pressure will not increase with longer exposure. Unlike other ambient pressure diving, the saturation diver is only exposed to external ambient pressure while at diving depth. bls. gov. www. the original on 2021-02-27. Retrieved 2019-10-18. The diver undergoes a single decompression to surface pressure at the end of the exposure of several days to weeks duration. "Commercial Divers".
