Reform mathematics The NCTM document Curriculum and Evaluation Standards for School Mathematics (CESSM) set forth a vision for K–12 (ages 5–18) mathematics education in the United States and Canada. It is based on principles explained in 1989 by the National Council of Teachers of Mathematics (NCTM). The CESSM. Mathematically Sane. In 2000, the NCTM revised its CESSM with the publication of Principles and Standards for School Mathematics (PSSM). The CESSM recommendations were adopted by many local- and federal-level education agencies during the 1990s. John A. Like those in the first publication, the updated recommendations became the basis for many states' mathematics standards, and the method in textbooks developed by many federally-funded projects.
