good article (GA) is a Wikipedia article that meets a core set of
editorial standards, the good article criteria, passing through the
good article nomination process successfully. They are well-
written, contain factually accurate and verifiable information, are
broad in coverage, neutral in point of view, stable, and illustrated,
where possible, by relevant images with suitable copyright
licenses. Good articles do not have to be as comprehensive as
featured articles (FA), but they should not omit any major facets: a
comparison of the criteria for good and featured articles describes
