Hydropneumatic suspension vehicle suspension system, invented by Paul Magès, produced by Citroën, and fitted to Citroën cars, as well as being used under licence by other car manufacturers Hydropneumatic suspension is a type of motor vehicle suspension system, invented by Paul Magès, produced by Citroën, and fitted to Citroën cars, as well as being used under licence by other car manufacturers. The suspension was referred to as Suspension oléopneumatique in early literature, pointing to oil and air as its main components. Similar systems are also widely used on modern tanks and other large military vehicles 9a316510e1

The C3 is produced in a five-door hatchback body style, with the first generation also being produced in a two-door convertible version, called the C3 Pluriel. A three-door hatchback, with a similar design as the second generation, was available as the Citroën DS3 and marketed as a premium model. 9a316510e1 Marketed with a less expensive variant, the Citroën ID, the DS was known for its aerodynamic, futuristic body design; unorthodox, quirky, and innovative technology, and set new standards in ride quality, handling, and braking, thanks to both being the first mass production car equipped with hydropneumatic suspension, as well as disc brakes. The 1967 series 3 also introduced directional headlights to a mass-produced car. 9a316510e1
