

The Railway Man

Rail transport in the Isle of Man These operate largely to what is known as "Manx Standard Gauge" (3 ft [914 mm] narrow gauge) and together they comprise about 65 miles (105 km) of Victorian railways and tramways. The steam railway to the south of the island, electric to the north and mountain line to the summit of Snaefell, the island's only mountain, are all government. The Isle of Man has a rich transport heritage and boasts the largest narrow-gauge railway network in the British Isles with several historic railways The Isle of Man has a rich transport heritage and boasts the largest narrow-gauge railway network in the British Isles with several historic railways and tramways still in operation. The Isle of Man Railway Museum in Port Erin allows people to find out more about the history of the Manx railways, and was until 1998 accompanied by a similar museum in Ramsey, which was dedicated to the history of the electric line, but this was closed and converted into a youth club 395c2b9e57

Isle of Man Railway rolling stock Although the number of serviceable carriages dropped from an original total The rolling stock used on the Isle of Man Railway today is entirely original. Although the number of serviceable carriages dropped from an original total of 75 to as low as 14, this total is once again increasing due to recent rebuilds. Types of coaches were categorized according to a lettering system: the original four-wheeled coaches were designated as A, B, C, and D types, and so on. The F prefix encompassed all bogie vehicles, including conversions from the A-D series. The rolling stock used on the Isle of Man Railway today is entirely original. The 3 ft (914 mm) gauge railway has been provided with a variety of stock from different manufacturers over its time. Letters G-M denoted goods stock, while N referred to ex-Manx Northern Railway six-wheel carriages 395c2b9e57
