History of radiation protection As a result, the study of
radiation damage also became a part of this history.
1515/reveh-2016-0011 Federal Office for Radiation
Protection, High-frequency electromagnetic fields in the
household: Microwave ovens The history of radiation
protection begins at the turn of the 19th and 20th centuries
with the realization that ionizing radiation from natural and
artificial sources can have harmful effects on living

organisms. 31, 2016, doi:10.1016/j.jm.2016.05.001

While radioactive materials and X-rays were once handled carelessly, increasing awareness of the dangers of radiation in the 20th century led to the implementation of various preventive measures worldwide, resulting in the establishment of radiation protection regulations. Although radiologists were the first victims, they also played a crucial role in advancing radiological progress and their sacrifices will always be remembered. Radiation damage caused many people to suffer amputations or die of cancer...
