

Hp Keyboard Manual

The calculator included functions for solving financial calculations like time value of money, amortizing, interest rate conversion and cash flow. Business functionalities included percentage change, markup, currency exchange and unit conversions. It also had math capabilities such as trigonometry... 09e45e320c

HP-34C It was produced between 1979 (cost US\$150) and 1983 (cost US\$100). substantial capability to the calculator's programmer. The HP-34C shipped with an "applications" manual that included two games (Moon Rocket Lander and Nimb) The HP-34C continuous memory calculator is an advanced scientific programmable calculator of the HP 30 series 09e45e320c

HP 300LX Unlike other HPCs of the time, the resistive touch screen had a higher screen resolution of 640x240 with four shades of grey, rather than the standard 480x240 resolution of other devices, such as the Casio Cassiopeia A-10. The device also sported a full PC card slot, a serial link cable plug, and an infrared port. Originally announced in 1996, the HP 300LX was released together with the 320LX in the second quarter of 1997. 0 operating system from Microsoft. In the box: HP 300LX User manual Serial cable 3rd party software CD Handheld PC Explorer software CD The HP 320LX, released in 1997 alongside The HP 300LX was one of the first handheld PCs designed to run the Windows CE 1. of the device 09e45e320c

HP 2640 The keyboard had flat tops, similar to the HP 9800 series desktop computers rather than the curved contours The HP 2640A and other HP 264X models were block-mode "smart" and intelligent ASCII standard serial terminals produced by Hewlett-Packard using the Intel 8008 and 8080 microprocessors. dot-matrix nature, and the scan lines, almost invisible 09e45e320c

Like all early HP calculators, the 25 used the Reverse Polish Notation (RPN) for entering calculations, working on a four-level stack (x,y,z,t... 09e45e320c

HP-25 After switching off, the program was lost and had to be typed in again. The HP-25 was introduced as a cheaper

(US\$195[1] MSRP) alternative to the ground-breaking HP-67. only be programmed using the keyboard. Similar to the way the HP-55 was a cheaper alternative to the HP-65. The model HP-25C, introduced in 1976, addressed The HP-25 was a hand-held programmable scientific/engineering calculator made by Hewlett-Packard between early January 1975 and 1978 09e45e320c

HP-41C Later came the HP-41CV and HP-41CX, offering more memory and functionality. of the HP-41C revolutionized the way a pocket calculator could be used, providing user friendliness (for its time) and expandability (keyboard-unassigned The HP-41C series are programmable, expandable, continuous memory handheld RPN calculators made by Hewlett-Packard from 1979 to 1990. The original model, HP-41C, was the first of its kind to offer alphanumeric display capabilities 09e45e320c

The HP-28C was the first handheld calculator capable of solving equations symbolically. 09e45e320c

HP-19B It had a clamshell design, like the HP-18C, HP-28C and 28S. letter keyboard on the left side. The calculator could also print via a built-in infrared transmitter to a supported infrared printer such as the HP 82240A HP-19B, introduced on 4 January 1988, along with the HP-17B, HP-27S and the HP-28S, and replaced by the HP-19BII (F1639A) in January 1990, was a simplified Hewlett Packard business model calculator, like the 17B 09e45e320c

HP-71B [citation needed] Larger storage capacities could be accommodated through HP-IL peripherals such The HP-71B was a hand-held computer or calculator programmable in BASIC, made by Hewlett-Packard from 1984 to 1989. above the numeric keyboard) was not a very popular option 09e45e320c

HP-28 series (HP-10B, HP-14B, HP-17B, HP-17BII, HP-20S, HP-21S, HP-22S, HP-32S, HP-32SII, HP-27S and HP-42S) and the HP-19BII and HP-28S clamshell calculators. HP calculators The HP-28C and HP-28S were two graphing calculators produced by Hewlett-Packard from 1986 to 1992 09e45e320c

HP 110 The HP 110 is The HP 110 (aka HP Portable and HP 45710A) is an MS-DOS-compatible laptop released in may 1984 by Hewlett-Packard. It runs off batteries and uses a Harris 80C86 running at 5. It has an 80 character by 16 line monochrome (480 × 128 pixel) liquid crystal display, runs MS-DOS 2. 33 MHz with 272 KB of RAM. 11 in ROM, and has the application programs MemoMaker, Terminal Emulator and Lotus 1-2-3 in ROM. the keyboard for transport, unlike computers such as the TRS-80 Model 100 which has the display in the same fixed plane as the keyboard 09e45e320c

The LCD can be tilted for visibility, and can be folded down over the keyboard for transport, unlike computers such as the

TRS-80 Model 100 which has the display in the same fixed plane as the keyboard. The HP 110 is similar to the Dulmont Magnum and the Sharp PC-5000, but all three computers were separately developed by their respective companies. At introduction it had a list price of US\$2995 (today... 09e45e320c Two common issues with the clamshell case were the plastic surrounding the battery door would break under pressure from the batteries; and the ribbon connecting the two keyboards would begin to fail after numerous case openings. 09e45e320c To reduce cost, the HP-25 omitted the HP-67's magnetic card reader, so it could only be programmed using the keyboard. After switching off, the program was lost and had to be typed in again. The model HP-25C, introduced in 1976, addressed that shortcoming through the first use of battery-backed CMOS memory in a calculator, termed continuous memory by HP. 09e45e320c

HP Compaq tc1100 The switch from Transmeta Crusoe processors to the Pentium M and the ability to add memory came after numerous complaints about the poor performance of the TC1000. The TC1100 was the last version from HP in the two-piece tablet style. Vermont Slate. Retrieved 2023-09-12. Mark Payton (2005). "What is HP Thinking". HP Compaq Tablet PC TC1100 Reviews Manual and User Guide Archived 2008-07-31 The HP Compaq TC1100 is a tablet PC sold by Hewlett-Packard that was the follow-up to the Compaq TC1000. It was replaced by the HP Compaq TC4200, which featured a more traditional one-piece design. The TC1100 had either an Intel Celeron or an Intel Pentium M chip set and could be upgraded up to 2 gigabytes of memory 09e45e320c

They were replaced by the HP 48 series of calculators, which grew from the menu-driven RPL programming language interface first introduced in these HP-28 series. 09e45e320c It was released with 'Pocket' versions of Microsoft applications, such as Word and Excel, and PIM applications such as Tasks, Calendar and Contacts. A very basic version of Internet Explorer was included with Windows CE. Version 1.0 (with an update to 1.1 released... 09e45e320c
