idea lab Each format is identified by a capitalized word that is the format's full or abbreviated name. The typical file name extension used for a format is included in parentheses if it differs from the identifier, ignoring case. policy Future of Wikinews (including potential merger with Wikipedia) and establishment of Wikispore Centralized discussion policy The use of file name extension varies by

operating system and file system. Some older file systems, such as File Allocation Table (FAT), limited an extension to 3 characters but modern systems do not. Microsoft operating systems (i.e. MS-DOS and Windows) depend more on the extension to associate contextual and semantic meaning to a file than Unix-based systems. c7cf57738d 18 December > c7cf57738d
