He was born into a wealthy family in Bologna, Italy, and was privately educated in the style of most upper class children. He did not receive special training as a physician or attend the famous university in Bologna. It is unknown if he received special training in art. He appears to have been an avid collector of horses and a rider. His noted work, *Anatomia del Cavallo*, appeared two months after his death in 1598 and was a milestone in equine veterinary publishing. It is especially known for its well drafted woodcut images of horse anatomy which were heavily influenced by human anatomical works published in the decades before, especially Andreas Vesalius' *De Fabrica Corporis Humani* (Basel, 1543... 6852d704fe
