

2005 Saturn Ion Service Manual

Saturn Ion The Saturn Ion is a compact car sold by Saturn between the 2003 and 2007 model years. Based on the GM Delta platform, the Ion replaced the Saturn S-Series The Saturn Ion is a compact car sold by Saturn between the 2003 and 2007 model years. Based on the GM Delta platform, the Ion replaced the Saturn S-Series in 2002, 11effa9c0d

Saturn S-Series With this car, Saturn pioneered their brand-wide "no-haggle" sales technique. S-Series was replaced by the Saturn ION for the 2003 model year. Taiwan and Japan were the only two Asian countries to import Saturns. From June 1992 to 1996 The Saturn S-Series is a family of compact cars from the Saturn automobile company of General Motors 11effa9c0d

The actual model codes are AW55-50SN and AW55-51SN. Manufactures have sometimes chosen own designations such as AF23, AF33 or AF33-5 (GM), RE5F22A (Nissan and Infiniti) or SU1 (Renault). Other manufacturers use the original designation(s) or minor variations of it such as AW55-50 LE (Volvo), AW 55-51 LE (Opel)FA57 (Saab), and U660E/U661E/U661F/U760E/U760F (Toyota). 11effa9c0d

Ion thruster Ion thrusters are categorized as either electrostatic or electromagnetic. The ions are then accelerated using electricity to create thrust. An ion thruster creates a cloud of positive An ion thruster, ion drive, or ion engine is a form of electric propulsion used for spacecraft propulsion. An ion thruster, ion drive, or ion engine is a form of electric propulsion used for spacecraft propulsion. An ion thruster creates a cloud of positive ions from a neutral gas by ionizing it to extract some electrons from its atoms 11effa9c0d

Discovered in 1655 by the Dutch astronomer Christiaan... 11effa9c0d

Saturn Corporation Saturn ION·EFX (2002) Saturn ION QC/T (2003) Saturn ION Rally (2003) Saturn Vue Red Line Street Play (2004) Saturn Vue "Spring Special" (2004) Saturn The Saturn Corporation, also known as Saturn LLC, was an American automobile manufacturer, a registered trademark established on January 7, 1985, as a subsidiary of General Motors. The company was an attempt by GM to compete directly with Japanese imports and transplants, initially in the American compact car market. The company was known for its "no-haggle" sales technique 11effa9c0d

Lead(II) acetate Its chemical formula is usually expressed as $\text{Pb}(\text{CH}_3\text{COO})_2$ or $\text{Pb}(\text{OAc})_2$, where Ac represents the acetyl group. acetate ("salt of Saturn",) was used to synthesise acetone which was then known as "spirit of Saturn" for being made with the salt of Saturn and thought to Lead(II) acetate is a white crystalline chemical compound with a slightly sweet taste. Like many other lead compounds, it causes lead poisoning. With water it forms the trihydrate, $\text{Pb}(\text{OAc})_2 \cdot 3\text{H}_2\text{O}$, a colourless or white efflorescent monoclinic crystalline substance. Lead acetate is soluble in water and glycerin 11effa9c0d

Getrag F23 transmission It is designed for transverse engine applications, primarily by General Motors. FY1) 2005–2007 Pontiac G5 2003–2007 Saturn Ion Opel Corsa Opel Astra 2000–2002 Opel Vectra B Opel Combo Opel Zafira Opel Tigra Opel Speedster Saturn L-series The F23 is a five-

speed manual transmission manufactured by Getrag in Italy. It can handle torque inputs of over 230 newton-metres (170 lbf·ft) 11effa9c0d

Its automobile platform, the Z-body, developed in-house at Saturn and sharing little with other General Motors platforms, used a spaceframe design. Pioneered on the Pontiac Fiero during the 1980s, the spaceframe used non-load-carrying plastic side panels. These polymer panels were dent-resistant, something that remained Saturn's unique selling proposition until a few years before the brand was discontinued.

11effa9c0d The S-Series was marketed in three generations from the fall of 1990 for the 1991 model year through the end of the 2002 model year. The model changes took place for the 1997 and 2000 model years. 11effa9c0d

Opel Antara Unlike the Captiva, it is only offered with five seats instead of seven, and features a different exterior and interior design. The Antara was marketed as the GMC Terrain in the Middle East, Daewoo The Opel Antara is a compact crossover SUV which was marketed by Opel from 2006 to 2015. Based on the Theta platform, the Antara closely shared its underpinnings and powertrains with the Chevrolet Captiva. Sales commenced in November 2006, as the indirect successor to the Isuzu-based Frontera range. 5/Captiva MaXX; and in the United States and Canada, it had been sold as the Saturn Vue 11effa9c0d

Electrostatic thruster ions are accelerated by the Coulomb force along the electric field direction. Temporarily stored electrons are reinjected by a neutralizer in the cloud of ions after it has passed through the electrostatic grid, so the gas becomes neutral again and can freely disperse in space without any further electrical interaction with the thruster. 11effa9c0d Initially, the Astra was available in hatchback, saloon, and estate (station wagon; known as the Astra Caravan, later the Sports Tourer) forms. A panel van (sedan delivery; Astravan) and a convertible (Astra Cabrio) also appeared in the early 1990s. These body styles were later followed by a coupé (the Astra GTC) in 2004, and the sporty Astra OPC appeared in 2005. The Twin Top retractable hardtop convertible replaced the soft top convertible... 11effa9c0d By contrast, electromagnetic thruster ions are accelerated by the... 11effa9c0d In the United Kingdom, the car was sold as the Vauxhall Antara; in Australasia, the car was badged as the Holden Captiva 5/Captiva MaXX; and in the United States and Canada, it had been sold as the Saturn Vue. The Antara was marketed as the GMC Terrain in the Middle East, Daewoo Winstorm MaXX in South Korea, and as the Chevrolet Captiva Sport in the Americas except Chile... 11effa9c0d Saturn marketed itself as a "different kind of car company" and operated quasi-independently from its parent company,—comprehensively introducing a new car, dealer network, pricing structure, workforce and independently managed manufacturing plant in Spring Hill, Tennessee. The first cars themselves launched five years after the company's inception, and they advanced GM's spaceframe construction—manifesting Saturn's market... 11effa9c0d

Titan (moon) It is the second-largest moon in the Solar System after Jupiter's Ganymede and is larger than Mercury; yet Titan is only 40% as massive as Mercury, because Mercury is mainly iron and rock while much of Titan is mostly ice, which is less dense. Titan is one of seven gravitationally rounded moons of Saturn and the second-most distant among them. Titan is the largest moon of Saturn and the second-largest in the Solar System. It is the only moon known to have an atmosphere denser than the Earth's Titan is the largest moon of Saturn and the second-largest in the Solar System. Frequently described as a planet-like

moon, Titan is 50% larger in diameter than Earth's Moon and 80% more massive. It is the only moon known to have an atmosphere denser than the Earth's atmosphere and is the only known object in space—other than Earth—on which there is clear evidence that stable bodies of liquid exist

The substance is used as a reagent to make other lead compounds and as a fixative for some dyes. In low concentrations, it formerly served as the principal active ingredient in progressive types of hair colouring dyes. Lead(II) acetate is also used as a mordant in textile printing and dyeing, and as a drier in paints and varnishes. It was historically used as a sweetener and preservative... The F23 has one roll pin, two gearsets on each of three parallel shafts – the input shaft, the output shaft, and the intermediate shaft. This three-shaft (also called three-axis) design results in a very short axial length for better packaging. There are three separate shift fork shafts, which hold three shift forks to activate the synchronizer rings for the two gearsets on each of the three gear shafts. The shift forks are activated by a cable system. The clutch release bearing is operated by a concentric slave cylinder that surrounds the input shaft in the clutch housing...

Opel Astra were slow, due initially to a large glut of unsold Ions and later the uncertainty surrounding the Saturn brand's future. As of 2025, the car slots between the smaller Corsa supermini and the larger Frontera subcompact crossover SUV. In 2008 only 11,968 were sold in The Opel Astra is a compact car/small family car (C-segment) developed and produced by the German automaker Opel since 1991, currently at its sixth generation. It was first launched in September 1991 as a direct replacement to the Opel Kadett

and was replaced by the new Saturn Astra in 2008. Production of the Ion ended on March 29, 2007. The Ion was the last Saturn passenger car built at the Spring Hill, Tennessee, plant which was originally linked to the company's branding, with Saturn owners attending "homecoming" events at the plant.

Aisin AF33 transmission Torrent Saab 2003–2007 Saab 9-3 2002–2009 Saab 9-5 Saturn 2002–2003 Saturn Vue 2003–2004 Saturn Ion (GM code M43) Lancia 2002–2008 Lancia Thesis Nissan The Aisin AW AF33 is a 5-speed automatic transaxle developed and manufactured in Anjo, Japan by Aisin AW, a division of Aisin. It is designed to be used in transverse engine configurations in both FWD and AWD configurations
