Language attrition Such interference from a second language is likely experienced Language attrition is the process of decreasing proficiency in or losing a language. For first or native language attrition, this process is generally caused by both isolation from speakers of the first language ("L1") and the acquisition and use of a second language ("L2"), which interferes with the correct production and comprehension of the first. It is common among immigrants that travel to countries where languages foreign to them are used. Such interference from a second language is likely experienced to some extent by all bilinguals, but is most evident among speakers for whom a language other than their first has started to play an important, if not dominant, role in everyday life; these speakers are more likely to experience language attrition. second language ("L2"), which interferes with the correct production and comprehension of the first. Social Stories However, it is difficult to assess whether the concept would have been successful if it had been carried out as designed. Although the prescribed format was meant for high functioning people with basic communication skills, the format was adapted substantially to suit individuals with poor communication skills and low level functioning, for example children who are struggling with understanding social situations or when coping with change. to help an individual understand social processes and increase their

comprehension of other people's thoughts and actions. The evidence shows that there has been minimal improvement in social interaction skills. Social stories are used as part Social Stories were devised as a tool to help autistic individuals better understand the nuances of interpersonal communication so that they could "interact in an effective and appropriate manner" 2a26843f1d

Code-switching is different from plurilingualism in that plurilingualism refers to the ability of an individual to use multiple languages, while code-switching is the act of using multiple languages together. Multilinguals (speakers of more than one language) sometimes use elements of multiple languages when conversing with each other. Thus, code-switching is the use of more than one linguistic variety in a manner... 2a26843f1d
