Duck and cover 12[usurped] Evaluation of Thermal Effects on Specimens Exposed at Bikini (NML Project 5046, Part 7, Confidential) (March, 1950). Investigation of Radiation "Duck and cover" is a method of personal protection against the effects of a nuclear explosion. Ducking and covering is useful in offering a degree of protection to personnel located outside the radius of the nuclear fireball but still within sufficient range of the nuclear explosion that standing upright and uncovered is likely to cause serious injury or death. In the most literal interpretation, the focus of the maneuver is primarily on protective actions one can take during the first few crucial seconds-to-minutes after the event, while the film of the same name and a full encompassing of the advice also cater to providing protection up to weeks after the event e79d849ebf

There are six subspecies of barn swallow, which breed across the Northern Hemisphere. Two subspecies, (*H. r. savignii* and *H. r. transitiva*) have fairly restricted ranges in the Nile valley and eastern Mediterranean, respectively. The other four are more widespread, with winter ranges covering much of the Southern Hemisphere. e79d849ebf Village pump (miscellaneous) archive e79d849ebf

John James Audubon In 1818, Rafinesque visited Kentucky and the Ohio River valley to study fishes and was a guest John James Audubon (born Jean-Jacques Rabin, April 26, 1785 – January 27, 1851) was a French-American self-trained artist, naturalist, and ornithologist. Audubon is also known for identifying 25 new species. His combined interests in art and ornithology turned into a plan to make a complete pictorial record of all the bird species of North America. He is the eponym of the National Audubon Society, and his name adorns a large number of towns, neighborhoods, and streets across the United. Audubon used it to guide him when he had access to a copy. His major work, a color-plate book titled *The Birds of America* (1827–1839), is considered one of the finest ornithological works ever completed. He was notable for his extensive studies documenting all types of American birds and for his detailed illustrations, which depicted the birds in their natural habitats e79d849ebf

Barn swallow It is a distinctive passerine bird with blue upperparts and a long, deeply forked tail. In Anglophone Europe, it is just called the swallow; in northern Europe, it is the only member of family Hirundinidae called a "swallow" rather than a "martin". collection of National Museums Liverpool at World Museum, with accession number NML-VZ T2057. The specimen was collected in the Plains of Esdraclon, Palestine The barn swallow (*Hirundo rustica*) is the most widespread species of swallow in the world, occurring on all continents, with vagrants reported even in Antarctica e79d849ebf

Miscellaneous e79d849ebf

Conflict of laws These issues can arise in any private law context, but they are especially prevalent in contract law and tort law. This body of law deals with three broad topics: jurisdiction, rules regarding when it is appropriate for a court to hear such a case; foreign judgments, dealing with the rules by which a court in one jurisdiction mandates compliance with a ruling of a court in another jurisdiction; and choice of law, which addresses the question of which substantive laws will be applied in such a case. International Law, Research Guide Archived November 3, 2016, at the Wayback Machine, Peace Palace Library Republic of Argentina v NML Capital Ltd [2010] EWCA Conflict of laws (also called private international law) is the set of rules or laws a jurisdiction applies to a case, transaction, or other occurrence that has connections to more than one jurisdiction e79d849ebf
