You can use the list to generate your own lists in whatever language you're learning and to test yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource a8434b753e

Efficient energy use Another method made by Lev Levich is to remove energy subsidies that promote high energy consumption and inefficient energy use. For example, insulating a building allows it to use less heating and cooling energy while still maintaining a comfortable temperature. compressed air systems by installing variable speed drives, along with preventive maintenance to detect and fix air leaks, can improve energy efficiency 20 to Efficient energy use, or energy efficiency, is the process of reducing the amount of energy required to provide products and services. Improved energy efficiency in buildings, industrial processes and transportation could reduce the world's energy needs in 2050 by one third. There are many technologies and methods available that are more energy efficient than conventional systems a8434b753e

Food safety The tracks within this line of thought are safety between industry and the market and then between the market and the consumer. The occurrence of two or more cases of a similar illness resulting from the ingestion of a common food is known as a food-borne disease outbreak. compliance. This compliance-check approach typically involves inspection checklists and numerical scoring or grading systems, which may carry different weights Food safety (or food hygiene) is used as a scientific method/discipline describing handling, preparation, and storage of food in ways that prevent foodborne illness. In this way, food safety often overlaps with food defense to prevent harm to consumers. In considering industry-to-market practices, food safety considerations include the origins of food including the practices relating to food labeling, food hygiene, food additives. Food safety includes a number of routines that should be followed to avoid potential health hazards a8434b753e
