Drawing up a comprehensive list of words in English
is important as a reference when learning a language
as it will show the equivalent words you need to learn
in the other language to achieve fluency. Eventually
these words will all be translated into big lists in many
different languages and using the words in phrase
contexts as a resource. You can use the list to
generate your own lists in whatever language you're
learning and to test yourself. A big list will constantly
show you what words you don't know and what you
need to work on and is useful for testing yourself
