

Toyota 2kd Manual

The Innova is the replacement for wagon versions of Kijang (internally known as the Toyota Utility Vehicle), which was also marketed under different names such as Tamaraw FX/Revo, Unser, Zace and Condor. Like the outgoing Kijang, the first two generations (2004–2022) of the Innova are rear-wheel-drive vehicles built on the body-on-frame chassis shared with the Hilux pickup truck and the Fortuner SUV under the IMV project, instead of the unibody construction commonly used by MPVs of its era. The chassis was adopted due to the perceived strength and durability which are preferred by customers mainly in Indonesia. The third-generation model... The last digit represents the... The codes are divided into three sections The first digit represents the generation (not the number of gears, see A10 vs A20 and A30 vs A40 vs A40D). Older transmissions have two digits. The second digit represents the number of gears.
