In the 1980s, 3D printing techniques were considered suitable only for the production of functional or aesthetic prototypes, and a more appropriate term for it at the time was rapid prototyping. As of 2019, the precision, repeatability, and material range of 3D printing have increased to the point that some 3D printing processes are considered viable as an industrial-production technology; in this context, the term additive manufacturing... 215357a4da Dolch compiled the list based on children's books of his era, which is why nouns such as "kitty" and "Santa Claus" appear on the list instead of more current high-frequency words. The list contains 220 "service words" that Dolch thought should be easily recognized in order to achieve reading fluency in the English language. The compilation excludes nouns, which comprise a separate 95-word list.
