The litre was also used in several subsequent versions of the metric system but is not an SI unit; the SI unit of volume is the cubic metre (m3). The spelling used by the International Bureau of Weights and Measures is "litre", a spelling which is shared by most English-speaking countries. The spelling "liter" is predominantly used in American English. 8658d3965e == Science and technology == 8658d3965e DVD-R DL products started appearing on the market during mid-2004. 8658d3965e List of South Korean companies 8658d3965e == Development == 8658d3965e Chaebol 8658d3965e
