The law mandated that nearly every resident of Massachusetts obtain a minimum level of insurance coverage, provided free and subsidized health care insurance for residents earning less than 150% and 300%, respectively, of the federal poverty level (FPL) and mandated employers with more than 10 full-time employees provide healthcare insurance.

Healthcare reform debate in the United States S. Major categories of expense include hospital care (32%), physician and clinical services (20%), and prescription drugs (10%). costs in The healthcare reform debate in the United States has been a political issue focusing upon increasing medical coverage, decreasing costs, insurance reform, and the philosophy of its provision, funding, and government involvement. U. average in 2015

Health equity Falkingham, Jane (January 2004). Individuals who have consistently been deprived of these three determinants are significantly disadvantaged from health inequities, and face worse health outcomes than those who are able to access certain resources. It is not equity to simply provide every individual with the same resources; that would be equality. In order to achieve health equity, resources must be allocated based on an individual need-based principle. PMID 15451735. Social Science & Medicine Health equity arises from access to the social determinants of health, specifically from wealth, power and prestige. "Poverty, out-of-pocket payments and access to health care: evidence from Tajikistan"

Sub-specialties of emergency medicine include disaster medicine, medical toxicology, point-of-care...
