Merrill Gilfillan Red Mavis, Flood Editions, Chicago 2014 ISBN 978-0-9838893-7-3 Would-be Dogwood, Shirt Pocket Press Grand Rapids, MI, 2017 Old River, New River, Red Dragonfly Merrill Daniel Gilfillan (born 14 May 1945) is an American writer of poetry, short fiction, and essays 356fa98d87

Black-tailed prairie dogs are generally tan in color, with lighter-colored bellies. They may have color variation in their pelt, such as dark fur on their back in black and brown tones. Their tails have black tips, from which their name is derived. Adults can weigh from 1.5 to 3.0 lb (0.68 to 1.36 kg), males are typically heavier than females. Body length is normally from 14 to 17 in (36 to 43 cm), with a 3-to-4-inch (7.6 to 10.2 cm) tail. The black-tailed... 356fa98d87 Her interests include pioneer women's history, antique quilts, and French, Italian, and Hawaiian language and culture. 356fa98d87

Buffalo Ridge The Buffalo Ridge is sixty miles (97 km) long and runs through Lincoln, Pipestone, Murray, Nobles, and Rock counties in the southwest corner of Minnesota, and Minnehaha, Moody, and Lincoln counties in southeast South Dakota. of the Coteau des Prairies in Minnesota. It stands 1,995 feet (608 m) above sea level. Its bedrock is formed of Cretaceous shale, sandstone and clay that lie above the pinkish-red Upper Precambrian Buffalo Ridge is a large expanse of rolling hills in the southeastern part of the larger Coteau des Prairies 356fa98d87

The first primetime animated series on PBS, Adventures from the Book of Virtues originally aired as part of the network's children's programming block from September 2, 1996 until the series finale on December 17, 2000; an epilogue to the series would be released on home video in June 2001. There was a two-year gap in between the second and third seasons; the series' production ended in June 2000. Reruns of the series were broadcast on PBS Kids until September 4, 2005, and on the now-defunct Qubo... 356fa98d87 == Nomenclature == 356fa98d87 Red Bird (1997) 356fa98d87 Keepsake Legacies series 356fa98d87 Karyn's Memory Box (1999) 356fa98d87 The red-tailed hawk is one of the largest members of the genus Buteo in North America, typically weighing from 690 to 1,600 g (1.5 to 3.5 lb) and measuring 45–65 cm (18–26 in) in length, with a wingspan from 110–145 cm (43–57 in). Females are about 25% heavier than males. It has a stocky body with broad wings and can be distinguished from other North American hawks by the eponymous tail, which is uniformly brick-red above and light buff-orange below. The species feeds on a wide range of small animals, such as rodents... 356fa98d87 They were characteristically found in parts of the upper Mississippi River Valley, in the central forest-grasslands transition, the central tall grasslands, the upper Midwest forest-savanna transition, and the northern tall grasslands ecoregions. They flourished in areas with rich loess soils and moderate rainfall around 30-35 inches (700-900 mm) per year. To the east were the fire-maintained eastern savannas. In the northeast... 356fa98d87 Prairie Winds series 356fa98d87

Adventures from the Book of Virtues lessons from their friends Plato the bison, Aurora the red-tailed hawk, Aristotle the prairie dog, and Socrates the bobcat. These lessons are told in the form of animated segments based on stories from a variety of origins including Bible stories, fairy tales, fables, mythology, and folk stories from diverse cultures. These lessons are told in Adventures from the Book of Virtues is an American animated children's television series based on the books *The Book of Virtues: A Treasury of Great Moral Stories*, and *The Children's Book of Virtues*, both by William Bennett, who served as Secretary of Education under President Ronald Reagan. The program focuses on two main human characters, Annie and Zach, who learn many life lessons from their friends Plato the bison, Aurora the red-tailed hawk, Aristotle the prairie dog, and Socrates the bobcat 356fa98d87

== Description == 356fa98d87 In 1750, English naturalist George Edwards included an illustration and a description of the snow goose in the third volume of his *A Natural History of Uncommon Birds*. He used the English name "the blue-winged goose". Edwards based his hand-coloured etching on a preserved specimen that had been brought to London from the Hudson Bay area of Canada by James Isham. When in 1758 the Swedish naturalist Carl Linnaeus updated his *Systema Naturae* for the 10th edition, he placed the snow goose with the ducks and geese in the genus *Anas*. Linnaeus included a brief description, coined the binomial name *Anas caerulescens*, and cited... 356fa98d87 == Life and work == 356fa98d87

Stephanie Grace Whitson She began what she calls "playing with imaginary friends" (writing fiction) when, as a result of teaching her four homeschooled children Nebraska history, she was encouraged and challenged by the lives of pioneer women in the West. A native of southern Illinois, she has lived in Nebraska, United States, since 1975. Italian, and Hawaiian language and culture. Prairie Winds series Walks The Fire (1995) Soaring Eagle (1996) Red Bird (1997) Keepsake Legacies series Sarah's Stephanie Grace Whitson (born 1952) is an American writer of historical fiction 356fa98d87

Merlin (bird) "Falco columbarius". 2021 e. 2305/IUCN. 2021-3. In recent decades, merlin populations in North America have been significantly increasing, with some merlins becoming so well adapted to city life that they forgo migration; in Europe, populations increased up to about 2000, but have been steady subsequently. RLTS The merlin (*Falco columbarius*) is a small species of falcon from the Northern Hemisphere, with numerous subspecies throughout North America and Eurasia. Males typically have wingspans of 53-58 centimetres (21-23 in), with females being slightly larger. The merlin has for centuries been well regarded as a falconry bird. They are swift fliers and skilled hunters, which specialize in preying on small birds in the size range of sparrows to doves and medium-sized shorebirds. BirdLife International (2021). IUCN Red List of Threatened Species. A bird of prey, the merlin breeds in the northern Holarctic; some migrate to subtropical and northern tropical regions in winter. T22696453A154505853. UK. falcon. doi:10 356fa98d87

Tallgrass prairie Historically, natural and anthropogenic fire, as well as grazing by large mammals The tallgrass prairie is an ecosystem native to central North America. The tallgrass prairie is an ecosystem native to central North America. Historically, natural and anthropogenic fire, as well as grazing by large mammals (primarily bison) provided periodic disturbances to these ecosystems, limiting the encroachment of trees, recycling soil nutrients, and facilitating seed dispersal and germination. Prior to widespread use of the steel plow, which enabled large scale conversion to agricultural land use, tallgrass prairies extended throughout

the American Midwest and smaller portions of southern central Canada, from the transitional ecotones out of eastern North American forests, west to a climatic threshold based on precipitation and soils, to the southern reaches of the Flint Hills in Kansas, to a transition into forest in Manitoba 356fa98d87

Cree people called the river Waskasoo Seepee, which means "Elk River". European arrivals sometimes called North American elk "red deer", after the related Eurasian species, and later named the community after the river... 356fa98d87 Soaring Eagle (1996) 356fa98d87 The scientific classification of the merlin (*Falco columbarius*) represents a crucial bridge between early colonial natural history and the birth of modern taxonomy. In the early 18th century, English naturalist Mark Catesby traveled through the American colonies and documented the bird under the colloquial name "pigeon... 356fa98d87

Red-tailed hawk The red-tailed hawk occupies a wide range of habitats and altitudes, including deserts, grasslands, coniferous and deciduous forests, agricultural fields, and urban areas. It is legally protected in Canada, Mexico, and the United States by the Migratory Bird Treaty. In the United States, it is one of three species colloquially known as the "chickenhawk". In the United States, it is one of three The red-tailed hawk (*Buteo jamaicensis*) is a bird of prey and one of the most common hawks in North America. It is absent in areas of unbroken forest and in the high arctic. The red-tailed hawk (*Buteo jamaicensis*) is a bird of prey and one of the most common hawks in North America. The red-tailed hawk breeds throughout most of the continent, from western Alaska and northern Canada to as far south as Panama and the West Indies 356fa98d87

== Books == 356fa98d87 The area was inhabited by First Nations including the Blackfoot, Plains Cree and Stoney before the arrival of European fur traders in the late eighteenth century. A First Nations trail ran from the Montana Territory across the Bow River near present-day Calgary and on to Fort Edmonton, later known as the Calgary and Edmonton Trail. The trail crossed the Red Deer River at a wide, stony shallows. The "Old Red Deer Crossing" is seven kilometres (4+1/2 miles) upstream from the present-day city. 356fa98d87

Snow goose 2021-3. "Anser caerulescens". doi:10. The species was previously placed in the genus *Chen*, but is now typically included in the "gray goose" genus *Anser*. 2305/IUCN. Both white and dark morphs exist, the latter often known as blue goose. Canada BirdLife International (2021). 2021 e. RLTS The snow goose (*Anser caerulescens*) is a species of goose native to North America. UK. IUCN Red List of Threatened Species. T22679896A157448765. Its name derives from the typically white plumage 356fa98d87

Dakota Moons series 356fa98d87 Since her first book, *Walks the Fire*, was published in 1995, Stephanie's fiction titles have appeared on the ECPA bestseller list numerous times and been finalists for the Christy Award, the Inspirational Reader's Choice Award, and ForeWord's Book of the Year. Her first non-fiction work, *How to Help a Grieving Friend*, was released in 2005. 356fa98d87 Heart Of The... 356fa98d87 Edge Of The Wilderness (2001) (Christy Award finalist) 356fa98d87 Valley Of The Shadow (2000) (Christy Award finalist) 356fa98d87 Red Deer serves Central Alberta, and its key industries include health care, retail trade, construction, oil and gas, hospitality, manufacturing and education. The city is surrounded by Red Deer County and borders on Lacombe County. 356fa98d87 Gilfillan was born and raised in Mount Gilead, Ohio, where his outdoorsman father (Merrill C. Gilfillan) worked as a naturalist for the state's Department of Natural Resources and helped inspire an early fascination with the natural world and its creatures. Gilfillan graduated in 1967 from the

University of Michigan. He attended the University of Iowa Writer's Workshop for two years, studying with Ted Berrigan, Anselm Hollo, and George Starbuck, among others. He lived and worked in New York City for eight years and then moved to Colorado, which served as a base for frequent expeditions to the Great Plains and other regions of America from which he reports in essays, poetry, and short stories. He now lives in Asheville, North Carolina. 356fa98d87 Because of its altitude and high average wind speed, Buffalo Ridge has been transformed into a place for creating renewable energy. As of May 2022, over 1,000 wind turbines stand in the Buffalo Ridge area, the oldest of which was built in 1984 and consists of 16 Kenetech kvs 33 turbines. 356fa98d87 Snow geese breed north of the timberline in Greenland, Canada, Alaska, and the northeastern tip of Siberia, and spend winters in warm parts of North America from southwestern British Columbia through parts of the United States to Mexico. 356fa98d87

Black-tailed prairie dog Prior to habitat destruction, the species may have been the most abundant prairie dog in central North America. Unlike some other prairie dogs, these animals do not truly hibernate. The black-tailed prairie dog (*Cynomys ludovicianus*) is a rodent of the family Sciuridae (the squirrels) found in the Great Plains of North America from The black-tailed prairie dog (*Cynomys ludovicianus*) is a rodent of the family Sciuridae (the squirrels) found in the Great Plains of North America from about the United States-Canada border to the United States-Mexico border. It was one of two prairie dogs described by the Lewis and Clark Expedition in the journals and diaries of their expedition. The black-tailed prairie dog can be seen above ground in midwinter. A black-tailed prairie dog town in Texas was reported to cover 25,000 mi² (64,000 km²) and included 400,000,000 individuals 356fa98d87
