Multi-function printer software is usually that it is much more limited in capabilities than Server based systems. A typical MFP may act as a combination of some or all of the following devices: email, fax, photocopier, printer, scanner. MFP manufacturers/brands include Brother Canon Dell Epson An MFP (multi-function product/printer/peripheral), multi-functional, all-in-one (AIO), or multi-function device (MFD), is an office machine which incorporates the functionality of multiple devices in one, so as to have a smaller footprint in a home or small business setting (the SOHO market segment), or to provide centralized document management/distribution/production in a large-office setting d6f683f618
