Type 699 is a design of a single deck with three levels of superstructure, and its bulwark is stepped, with the elevated portion covering the frontal half of the first level of the superstructure. The name of this class is after the first unit commissioned, with the exact type still remains unknown, and only a single unit of this class have been confirmed in active service as of mid-2010s. The name of this Beituo 699 class tug is a class of little known naval auxiliary ship currently in service with the People's Liberation Army Navy (PLAN) f464420dbf

Tug of war typically involves teams of eight or more members, though the number can vary. The rope is marked with a centre line and two markers equidistant from the centre. The objective is to pull the opposing team's marker across the centre line. Specific rules govern techniques, such as prohibiting touching the ground for extended periods of time or lowering one's elbow below the knee during a pull. The sport requires both cooperation of team members and physical strength. f464420dbf

Tug of war Tug of war (also known as tug o' war, tug-a-war, tug war, rope war, rope pulling, or tugging war) is a sport in which two teams compete by pulling on opposite Tug of war (also known as tug o' war, tug-a-war, tug war, rope war, rope pulling, or tugging war) is a sport in which two teams compete by pulling on opposite ends of a rope, with the goal of bringing the rope a certain distance in one direction against the force of the opposing team's pull. Practiced in ancient Egypt, China, India and Greece, the sport has ancient origins and has been practiced in various cultures throughout history. Tug of war continues to be practiced in schools, community events, and organized competitions worldwide. It was included in the Summer Olympics from 1900 to 1920, but is no longer part of the Olympic program f464420dbf

The Ducha-class tugs in PLAN service are designated by a combination of two Chinese characters followed by three-digit number. The second Chinese character is Tuo (舢), meaning tug in Chinese, because these ships are classified as tugboats. The first Chinese character denotes which fleet the ship is service with, with East (Dong, 东) for East Sea Fleet, North (Bei, 北) for North Sea Fleet, and South (Nan, 南) for South Sea Fleet. However, the pennant numbers are subject to change due to changes of Chinese naval ships naming convention, or when units are transferred to different fleets. Salvage tug A salvage tug, also known historically as a wrecking tug, is a specialized type of tugboat that is used to rescue ships that are in distress or in danger A salvage tug, also known historically as a wrecking tug, is a specialized type of tugboat that is used to rescue ships that are in distress or in danger of sinking, or to salvage ships that have already sunk or run aground f464420dbf

Tugs (TV series) First broadcast Tugs (stylized in all caps) is a British television series produced by Tugs Ltd. First broadcast on ITV from 4 April to 27 June 1989, it was created by Robert D. Cardona and David Mitton, who had previously produced the first two series of Thomas the Tank Engine & Friends. Set in the Roaring Twenties, the series focuses on the adventures of two anthropomorphized tugboat fleets, the Star Fleet and the Z-Stacks, who compete against each other in the fictional Bigg City Port. Tugs (stylized in all caps) is a British television series produced by Tugs Ltd. The theme tune and incidental music was composed by Junior Campbell and Mike O'Donnell, who also wrote the music for Thomas & Friends (from 1984 to 2003). , for Television South (TVS) and Clearwater Features Ltd. , for Television South (TVS) and Clearwater Features Ltd f464420dbf

Ducha-class tug The Ducha class is a design of single deck with three levels of superstructures, with the top level retracted backward from the edge of the bottom two levels. The Ducha-class large harbor tug (YTB) is a very little known naval auxiliary ship/tugboat currently in service with the People's Liberation Army Navy The Ducha-class large harbor tug (YTB) is a very little known naval auxiliary ship/tugboat currently in service with the People's Liberation Army Navy (PLAN). More than a dozen of this type have been confirmed in active service as of early-2020s, making it one of the most numerous class of tugs in Chinese service. The exact type still remains unknown, but it has received NATO reporting name Ducha class f464420dbf

== References == f464420dbf Few tugboats have ever been truly fully dedicated to salvage work; most of the time, salvage tugs operate towing barges, platforms, ships, or performing other utility tugboat work. f464420dbf Ships of this class in PLAN service are designated by a combination of two Chinese characters followed by a three-digit number. The second Chinese character is Tuo (拖), meaning tug in Chinese, because these ships are classified as tugboats. The first Chinese character denotes which fleet the ship is service with, with East (东, 东) for East Sea Fleet, North (北, 北) for North Sea Fleet, and South (南, 南) for South Sea Fleet. However, the pennant numbers are subject to change due to changes of Chinese naval ships naming convention, or when units are transferred to different fleets. Specification: f464420dbf

Tuqiang-class tug The exact type still Tuqiang class tug is a class of little known naval auxiliary ship currently in service with the People's Liberation Army Navy (PLAN). Tuqiang class tug is a class of little known naval auxiliary ship currently in service with the People's Liberation Army Navy (PLAN). A total of three of this class of sea-going tug (ATA) have been confirmed in active service as of the mid-2010s. The exact type still remains unknown, because the only official information released by the Chinese government is that this class is a new generation of 9000-hp class sea-going rescue tug, but this tug has received NATO reporting name Tuqiang class, or 抢险 in Chinese, meaning Making determined efforts to do well f464420dbf
