Pedagogy of the Oppressed The book is considered one of the foundational texts of critical pedagogy, and proposes a pedagogy with a new relationship between teacher, student, and society. and the colonized. An English translation was published in 1970, with the Portuguese original being published in 1972 in Portugal, and then again in Brazil in 1974. In the book, Freire calls traditional pedagogy the "banking model of education" because it treats the student as an empty vessel to Pedagogy of the Oppressed (Portuguese: Pedagogia do Oprimido) is a book by

Brazilian Marxist educator Paulo Freire, written in Portuguese between 1967 and 1968, but first published in Spanish in 1968

received the IEEE Internet Award; or have been His continued work on the demand for money through the 1990s and into the 21st century (with William B. P. Robson)...

David Laidler His book, *The Demand for Money*, was published in four editions from 1969 through 1993 (with slightly altered subtitles), initially setting forth the stability of the relationship between income and the demand for money and later taking into consideration the effects of legal, technological, and institutional changes on the demand for money. The book has been translated into French, Spanish, Italian, Japanese, and Chinese. "The Definition of Money - Theoretical and Empirical Problems", *Journal of Money, Credit and Banking*, August 1969, 508-25. 1968, 11-23. He published major economics journal articles on the topic in the late 1960s and early 1970s. "Money, Wealth and David Ernest William Laidler (born 12 August 1938, North Shields, England) is an English/Canadian economist who has been one of the foremost scholars of monetarism

Chicago plan Multiple bills in the United States Congress are related to the Chicago Plan. The Great Depression had been caused in part The Chicago Plan was introduced by University of Chicago economists in 1933 as a comprehensive plan to reform the monetary and banking system of the United States. The Great Depression had been caused in part by excessive private bank lending, so the plan proposed to eliminate the private bank money creation method of fractional reserve lending. Following the Great Recession, the plan was updated in a 2012 International Monetary Fund working paper. economists in 1933 as a comprehensive plan to reform the monetary and banking system of the United States. Centralized money creation would prevent booms and busts in the money supply
