It is commonly prepared by cutting a circular or square hole in the center of a piece of bread, which may be buttered. The bread is fried in a pan with butter, margarine, cooking oil, or other fat. At some point, an egg is cracked into the hole in the bread. When the egg is added to the bread determines how well-done the egg and bread will be relative to each other in the final product. The pan may be covered or the bread flipped while on the heat to obtain even cooking. A waffle or bagel (with a large enough hole) can be substituted for the slice of bread. 26f3cb7ff9
