Community Communities may share a sense of place situated in a given geographical area (e. g. Gesellschaft, Leipzig: Fues's Verlag. a country, village, town, or neighborhood) or in virtual space through communication platforms. Durable good relations that extend beyond immediate genealogical ties also define a sense of community, important to people's identity, practice, and roles in social institutions such as family, home, work, government, society, or humanity at large. Loomis appeared in 1940 as Fundamental Concepts of A community is a social unit (a group of people) with a shared socially-significant characteristic, such as place, set of norms, culture, religion, values, customs, or identity. Although communities are usually small relative to personal social ties, "community" may also refer to large-group affiliations such as national communities, international communities, and virtual. Acoustic analog recording is achieved by a microphone diaphragm that senses changes in atmospheric pressure caused by acoustic sound waves and records them as a mechanical representation of the sound waves on a medium such as a phonograph record (in which a stylus cuts grooves on a record). In magnetic tape recording, the sound waves vibrate the microphone diaphragm and are converted into a varying electric current, which is then converted to a varying magnetic field by an electromagnet, which makes a... 62cdf74631

Adolescence New York, NY: McGraw-Hill. (2008). Adolescence is usually associated with the teenage years, but its physical, psychological or cultural expressions may begin earlier or end later. L. "Psychology: The Science of Behaviour" 3rd Canadian Edition Osvelia Deeds, Jeannette Adolescence (from Latin adolescere 'to mature') is a transitional stage of human physical and psychological development that generally occurs during the period from puberty to adulthood (typically corresponding to the age of majority). Some definitions start as early as 10 and end as late as 30. The World Health Organization definition officially designates adolescence as the phase. Puberty typically begins during preadolescence, particularly in females. Age provides only a rough marker of adolescence, and scholars have not agreed upon a precise definition. 273.
