Geometric dimensioning and tolerancing tolerancing - Proportions and dimensions ISO 13715 Technical drawings - Edges of undefined shape - Vocabulary and indications ISO 15786 Simplified representation Geometric dimensioning and tolerancing (GD&T) is a system for defining and communicating engineering tolerances via a symbolic language on engineering drawings and computer-generated 3D models that describes a physical object's nominal geometry and the permissible variation thereof. GD&T is used to define the nominal (theoretically perfect) geometry of parts and assemblies, the allowable variation in size, form, orientation, and location of individual features, and how features may vary in relation to one another such that a component is considered satisfactory for its intended use. Dimensional specifications define the nominal, as-modeled or as-intended geometry, while tolerance specifications define the allowable physical variation of individual features of a part or assembly 64b5973d75

Kannada script). OCLC 34473667. 84–5. The Kannada and Telugu scripts share very high mutual intelligibility with each other, and are often considered to be regional variants of single script. Other scripts similar to Kannada script are Sinhala script (which included some elements from the Kadamba script), and Old Peguan script. Kannada script is also widely used for writing Sanskrit texts in Karnataka. The Indo-Aryan The Kannada script (IAST: Kannaḍa lipi; obsolete: Kanarese or Canarese script in English) is an abugida of the Brahmic family, used to write Kannada, one of the Dravidian languages of South India especially in the state of Karnataka. and alphabets (1st ed. Routledge, New York. It is one of the official scripts of the Indian Republic. Several minor languages, such as Tulu, Konkani, Kodava, Beary and Sanketi also use alphabets based on the Kannada script. Cardona, George; Jain, Dhanesh (2007). ISBN 978-0-415-13715-7. pp 64b5973d75
