Lean startup 17. Ross Pub.

Trent, Robert J. June 2015. p.
Lean startup is a methodology
for developing businesses and
products that aims to shorten
product development cycles
and rapidly discover if a
proposed business model is
viable; this is achieved by
adopting a combination of
business-hypothesis-driven
experimentation, iterative
product releases, and
validated learning. (2008).
This methodology enables
recovery from failures more
often than traditional ways of
product development. Lean
startup emphasizes customer
feedback over intuition and
flexibility over planning. Ft.
Lauderdale, FL: J. End-to-end
lean management: a guide to
complete supply chain
improvement f39d798e73

f39d798e73 126 f39d798e73
 Central to the lean startup
 methodology is the
 assumption that when startup
 companies invest their time
 into iteratively building
 products or services to meet
 the needs of early customers,
 the company can reduce
 market risks and sidestep the
 need for large amounts of
 initial project funding...
