Most of the shorts were directed by Charles Nichols. Another director of a considerable number of shorts in the series was Clyde Geronimi. August "Auggie" Pullman is a 10-year-old boy living in North Riverside Heights in Upper Manhattan. He has Treacher Collins syndrome, which has disfigured his face and required many surgeries and special care. Due to his condition, August has been homeschooled by his mother for several years; however, wanting him to experience the world, his parents enroll him in Beecher Prep, a private school, for the start of fifth grade. August has an older sister, Olivia "Via" Pullman, who is entering her first year of high... Pluto first appeared in *Thor #127* (April 1966), and was created by writer Stan Lee and artist Jack Kirby. Pluto was discovered by Clyde Tombaugh in 1930 and has made comparatively sporadic appearances in fiction since then; in the catalogue of early science fiction works compiled by E. F. Bleiler and Richard Bleiler in the 1998 reference work *Science-Fiction: The Gernsback Years*, Pluto only appears in 21 (out of 1,835) works, compared to 194 for Mars and 131 for Venus. Richard L. McKinney describes it as "unexplored... By early 1995, it was said that the show would present two short films per episode (with updated music and voices), which Belle and the children would sometimes interrupt for discussion purposes or to "test cognitive abilities".

Born in Illinois, and raised on farms in Kansas, Tombaugh was largely self-taught in astronomy and optical engineering, building his own telescopes from spare parts and grinding lenses by hand. His skill and determination led to a position at Lowell Observatory in Flagstaff, Arizona, where he conducted photographic surveys of the night sky. In addition to Pluto, Tombaugh identified hundreds of asteroids and a variety of star clusters, galaxies, and variable stars, thereby contributing significantly to the cataloguing of the night sky.

Pluto in fiction Alien life, sometimes intelligent life and occasionally an entire ecosphere, is a common motif in fictional depictions of Pluto. Pluto has appeared in fiction as a setting since shortly after its 1930 discovery, albeit infrequently. Human settlement appears only sporadically, but it is often either the starting or finishing point for a tour of the Solar System. It has variously been depicted as an originally extrasolar planet, the remnants of a destroyed planet, or entirely artificial. It was initially comparatively popular as it was Pluto has appeared in fiction as a setting since shortly after its 1930 discovery, albeit infrequently. It was initially comparatively popular as it was newly discovered and thought to be the outermost object of the Solar System and made more fictional appearances than either Uranus or Neptune, though still far fewer than other planets. Its moon Charon has also appeared in a handful of works 63303d3ba2
