The PBL tutorial process often involves working in small groups of learners... d5476929e1 The PBL process was developed for medical education and has since been broadened in applications for other programs of learning. The process allows for learners to develop skills used for their future practice. It enhances critical appraisal, literature retrieval and encourages ongoing learning within a team environment. d5476929e1

Problem-based learning Discovery learning Educational psychology Learning by teaching (LdL) POGIL Phenomenon-based learning Project-based learning 21st century skills Wood Problem-based learning (PBL) is a teaching method in which students learn about a subject through the experience of solving an open-ended problem found in trigger material. This includes knowledge acquisition, enhanced group collaboration and communication. The PBL process does not focus on problem solving with a defined solution, but it allows for the development of other desirable skills and attributes. milestones d5476929e1
