The first firearms originated in 10th-century China, when bamboo tubes containing gunpowder and pellet projectiles were mounted on spears to make the portable fire lance, operable by a single person, which was later used effectively as a shock weapon in the siege of De'an in 1132. In the 13th century, fire lance barrels were replaced with metal tubes and transformed into the metal-barreled hand cannon. The technology gradually spread throughout Eurasia during the 14th century. Older firearms typically used black powder as a propellant, but modern firearms use smokeless powder or other...

Safeties can generally be categorized as either internal safeties (which typically do not receive input from the user) and external safeties (which the user may manipulate manually, for example, switching a lever from "safe" to "fire"). Sometimes these are called "passive" and "active" safeties (or "automatic" and "manual"), respectively. External safeties typically work by preventing the trigger from being pulled or preventing the firing pin from striking the cartridge. 7da6e90f38
