Japan in 1986. Tomy (a.k.a. Takara Tomy) still owns the worldwide rights to the property. The heyday for the toyline came during the period in which it was licensed to Hasbro for distribution outside Japan when Hasbro marketed the toys in America and many other parts of the world. Although in the Japanese market Takara branded the toys as a spin-off of Transformers and even named the toys "BeastFormers", their tie-in to the Transformers universe was not part of the Hasbro story or marketing.

The existence of a population of "true big cats" in Britain, however, especially a breeding population, has been rejected by experts and the British government owing to a lack of convincing evidence for the presence of these animals. Supposed sightings made from a distance have been mostly written off as domestic cats close to the subject being misidentified as a larger animal sighted further away.
