Merck Index, 13th Edition Methyl butyrate, thegoodscentscompany. not a suitable surrogate fuel for biodiesel combustion studies. Like most esters, it has a fruity odor, in this case resembling apples or pineapples. Although it is flammable, it has a relatively low vapor pressure (40 mmHg at 30 °C (86 °F)), so it can be safely handled at room temperature without special safety precautions. At room temperature, it is a colorless liquid with low solubility in water, upon which it floats to form an oily layer 786175ed63
